How Joshua's Evidence Framing Changed

Source: Editor-in-Chief | Owner: Editor-in-Chief

Joshua did not materially change its top opportunity: DELL remains first. The useful question is whether confidence improved, deteriorated, or merely stayed unproven.

Can Yesterday's Warnings Be Graded?

Source: Editor-in-Chief | Owner: Editor-in-Chief

- Unconfirmed: Pending order lifecycle - why it matters: Pending-order cancellations have trackable reasons and no obvious rapid churn pattern.; would change Joshua's view: canceled-order regret analysis shows protection or avoidable missed gains. - No fresh canceled-order pressure is visible in the current lifecycle summary.

- Still watching: Sentinel infrastructure state ONLINE - why it matters: operational freshness affects how much Joshua can trust external/context observations; would change Joshua's view: fresh validated Sentinel status returns before the market session. - Current Sentinel state is online.

- Still watching: WOPR pipeline Learning present - untrusted - why it matters: the active gate shows whether today's constraint is opportunity count, evidence quality, or calibration; would change Joshua's view: candidates begin clearing the current gate with stronger evidence. - Current gate is Learning trust.
